Former St. Louis Ordnance Plant (WWII) Property Information

The following general orientation information is taken from various files on the St. Louis Ordnance Plant (SLOP) compiled for the Environmental Office, US Army Engineer Center and Ft. Leonard Wood. A General Plot Plan, with the location of buildings, (reference 1.) was copied, reduced and marked up in color. The attached Plot Plan (two overlapping 11 x 17 sheets) is comparable to the outline drawing "Exhibit 2-3" in reference 2.

1. The green area on the west side of Goodfellow Blvd identified as Wherry - Housing (formerly St. Louis Area Support Center housing) is now apparently the property of the State of Missouri. See the attached newspaper article dated March 26, 1991

2. A parcel of land at one time identified as the Goodfellow US Army Reserve Center has been taken over by the Department of Labor as a Job Corps (DOL-JC) area. The parcel of land formerly known as the Hanley Area is now subdivided and is in part added to that held by DOL-JC and shown in blue. The DOL-JC area is adjacent to the Housing area. The remainder of the Hanley area is currently identified by the Army as SLOP and shown in pink. Apparently this identification as SLOP is because it is the only remaining original parcel that has not been transferred out of Army ownership i.e. the name remains attached to the remaining property.

3. Two parcels marked in orange are used by the 102d USARCOM for military reserve activities. The larger portion is Reserve Center #3 as identified on Exhibit 2-3 in reference 2. The smaller parcel on the east side of Goodfellow Blvd is known as 4100 Goodfellow. Subsequent to the 1991 USATHAMA (Reference 2) study 4 buildings (219 A, D, G, & 236) have been decontaminated, renovated and placed back into use by reserve units.

4. The north most tip of the original area formerly used by Chevrolet - Shell is known today as St. Louis Army Ammunition Plant (SLAAP), 4800 Goodfellow Blvd and is also shown in blue.

5. The area outlined in green is probably held by GSA Public Building Service, 4300 Goodfellow Blvd, St. Louis, MO 63120 for use by The US Army Aviation and Troop Command and other tenants.

6. Other unmarked areas are, or have been, held by private business and the City of St. Louis.
